- The above dimensions represent the footprint of the assembled shelving unit for each respective cantilevered shelf style.
- When "banking" cantilevered shelving units side-by-side, and using a common upright (item CSURC); add an additional 11/2" to the footprint width for each common upright used.
- For the usable dimensions of each cantilevered shelf style, subtract 11/2" from the width and 11/2" from the depth of the dimension in the above chart.
- Cross Supports (set of 2) and Uprights not included.
