6-Series Velocity Adjustable Cafeteria Breath Guards

DESCRIPTION

Vollrath's family of Velocity Adjustable Breath Guards includes models to fit over Vollrath 4-Series/Signature Server® Serving Systems and standard drop-ins, as well as options to customize a breath guard to fit any application.

STANDARD FEATURES (SEE BACK FOR SPECS)

- 3/8" tempered glass panel is easily adjusted by one person, saving time and labor
- Locks into eight different positions to accommodate full-serve, self-serve and cleaning situations
- Eight-position mechanism allows for consistent spacing and appearance across units and serving lines
- Visual indicator when breath guard is locked in NSF position eliminates the need for measuring
- 11-gauge stainless steel tubing for added durability and rigidity
- Uprights are constructed of 100 percent stainless steel, so there are no plastic parts to break
- Counter mount flange welded to upright legs
- Welded miters and joints for added stability
- Top glass on breath guards up 96" long spans entire length without a center countertop mount location.
- Heat and light strips require hardwiring. Supplied with minimum 60" long leads.
- Made in the USA

CUSTOMIZE YOUR BREATH GUARD

Vollrath offers options to customize a breath guard to fit almost any application. To customize your breath guard enter data about your project and select from the options below. Contact your Vollrath representative for customizations not listed below.

Note: Customer orders require sign off on drawings prior to production. Drawings will be started at the time of order.
