

Prince Castle's Contact Toasters are a great choice for toasting buns for burgers and sandwiches. Our contact toasters deliver higher toasting capacities while maintaining proven, reliable design. A stronger motor and higher temperature platen increase performance, which caramelizes the bread, forming a coating that protects the bread from the juices and condiments that can cause soggy, unattractive bread. Adjustable bun crush controls and thermostat allow for precise toasting for various bread products.

Contact Toaster - Slim Line
