Teak Wood Shower Bench

Adds comfort and style to any walk-in shower

wall-mounted shower bench...

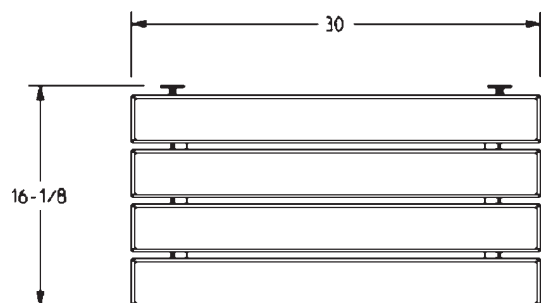

...folded down

Convenient, Durable, Functional, Stylish

A teak wood bench is very convenient to have in any walk-in shower, while offering not only comfort, but also elegance that only the natural beauty of teak can provide. A teak shower bench is made from a very durable tree that features superior resistance to water due to its natural oil. The wood is durable and long lasting, and the bench is assembled with stainless steel base components. It is a wonderful addition to your walk-in shower.

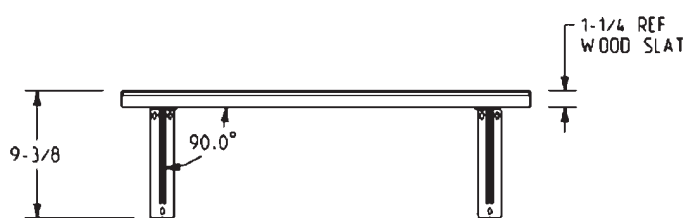

When floor space is critical or limited, bench can fold down out of the way when not in use. To do so, simply lift back of seat and brackets allow seat to fold down. It's that easy! Properly installed, seat can support up to 250 lbs. static load.
