

Slim Jar Stainless Steel Pumps

- Slim fountain jars allow you to easily add toppings to your station; (6) slim jars fit in the same space as (4) standard fountain jars
- Slim jar, portion-control pumps take the guesswork out of serving in countertop, drop-in or slanted fountainette applications; portions adjust in 1/8-oz increments
- Drop-in (DI) models have a higher discharge point for additional serving clearance
- Thick Pump (TP) models reduce dispensing force needed when working with especially thick or thicker products
- Pump knob can be colored and engraved (see p 13 for details)
- NSF listed, clean-in-place certified or disassemble for cleaning

Integrate into existing stations with (3) slim jars for every (2) standard fountain jars. See component guide featured on p 50

FIT FOR FLAVOR

Slim fountain jars allow you to inexpensively add flavors to your station. To retrofit your existing Server pump to fit slim jars, just replace the lid (noted above).
