

Sterno SpeedHeat™ HD

Portable, Instant, Flameless Heat.

Designed for frequent catering, the SpeedHeat™ HD offers a reusable, flameless heat system, **designed for optimal heat performance** and operator convenience

Sterno.
SPEEDHEAT™
FLAMELESS FOOD WARMING SYSTEM

Features & Benefits

- Water-activated SpeedHeat™ offers **portable, instant, flameless heat**
 - Easily serve hot food *anywhere*
- **Designed with precision** to create the ideal space between the SpeedHeat™ packets and food pans to achieve optimal heat performance
- Highly resilient, durable construction handles accidental drops and daily handling better than thin steel chafers offering longer use
- Perfect for quick-serve catered events, SpeedHeat™ HD sets-up in seconds and keeps hot food hot for up to 1 hour
- Stackable design and less parts provide an organized storage solution and helps prevent lost parts
- Easy to clean and dishwasher-safe
- Compatible with popular, standard depth stainless steel and foil pans for added versatility

Reuse with Sterno SpeedHeat™ Refills
(sold separately)
