SELF-CONTAINED REFRIGERATION SYSTEM
The unit uses a top-mounted, balanced system located behind the one piece louver assembly. The R290 refrigerant is environmentally friendly & has a low GWP. It features a finless StayClear™ condenser, thermostatic expansion valve, air-cooled, hermetic variable speed compressor, plenum effect blower coil, large, high humidity evaporator coil outside the food zone & a top-mounted non-electric condensate evaporator. Operating temperatures are 34-38°F. A 9' cord and plug are provided.

CONTROL
Traulsen's Smart Control™ features advanced control algorithms & sophisticated diagnostic capabilities to optimize performance. Utilizing smart sensors, it adapts the operation of the refrigeration system to a variety of environments & usage patterns. The Smart Control™ also offers a complete set of visual alarms designed to alert the user to critical events such as power outages or a prolonged door opening. In the event of an alarm, a dedicated Alarm LED will illuminate, informing the user of the critical event and duration.
