EAN 7611160186881

SHARPENING STEELS HONE. STRAIGHTEN. SHARPEN.

Even the highest-quality blades dull with frequent use, and dull blades are a recipe for dangerous slips and inferior cuts. However, there's one surefire way to keep blades keen: regular maintenance with a premium sharpening steel. While Victorinox is renowned for our Swiss-made cutlery, we put the same care and attention to detail into our professional-grade sharpening steels. Available in a variety of sizes, these steels are indispensable for anyone who values clean, safe cuts and knife longevity.
