This aerial digestif warmer is designed to warm brandy and cognac, which reveal their true aromas when brought to an appropriate temperature. Made of thick stainless steel wire, the holder sets a rounded glass over a small flame at just the right angle that provides the necessary heat. The holder includes a stainless steel burner with a wick that can be lit with a small amount of standard lamp oil. Glass is not included.

**Bottle Cooler, Stainless Steel and Copper**

The champagne saber is a blunt-edge sword that is used to open champagne bottles during ceremonial occasions. The saber is run along the body of the bottle to separate the collar from top of the neck, leaving the bottle open and ready to pour. The cork and collar remain together after separating from the neck. Overall length is 21".
