

Heavy-Duty Dunnage Shelving

NSF APPROVED: These commercial rated heavy-duty dunnage shelves are ideal for any more load-bearing storage application. Use the green epoxy for any storage need, including coolers. Chromate style is recommended for dry storage only.

Heavy-Duty Shelves with Wire Mats

Dunnage shelves offer considerably more weight-bearing capacity than other Focus shelves. They can be combined with other Focus shelves to provide extra strength at the lower levels of a shelving unit where the heaviest loads will be placed. The 36" (91.4 cm) length shelf has a 1,600-pound (727 kg) uniformly distributed static load capacity, the 48" (121.9 cm) shelf holds up to 1,300-pounds (591 kg), and the 60" (152.5 cm) shelf holds up to 1,000 pounds (455 kg).

Removable wire deck (5/16" / 8.0 mm) fits over reinforced 1" (2.5 cm) square, tubular frame and lifts off for easy, thorough cleaning.

Chromate Item #	Green Epoxy Coated Item #	Shelf Size (width x length)		Case
		(in.)	(cm)	
FFSM1836CH	FFSM1836GN	18" x 36"	45.7 x 91.4	1
FFSM1848CH	FFSM1848GN	18" x 48"	45.7 x 122.0	1
FFSM1860CH	FFSM1860GN	18" x 60"	45.7 x 152.4	1
FFSM2436CH	FFSM2436GN	24" x 36"	61.0 x 91.4	1
FFSM2448CH	FFSM2448GN	24" x 48"	61.0 x 122.0	1
FFSM2460CH	FFSM2460GN	24" x 60"	61.0 x 152.4	1

Beer Keg Racks - Chromate Finish

These racks endure the heavy load of full kegs and the continual impact of being loaded and unloaded. 2 shelf design doubles storage capacity and creates a neat and orderly way to store kegs for easier identification of inventory and rotation of stock. The uniformly distributed static load capacity is 1,300-pounds (591 kg) for 48" (121.9 cm) shelves and 1,000 pounds (455 kg) for 60" (152.5 cm) shelves. Removable wire deck (5/16" / 8.0 mm) fits over reinforced 1" (25 mm) square tubular frame, lifts off for easy, thorough cleaning, and makes loading and unloading kegs much easier. 54" (137.0 cm) high units consist of 2 each heavy duty shelves with wire mats, 2 each three sided frames for added strength and stability, and 4 each 54" (137.0 cm) posts with leveling feet. 63" (160.0 cm) high units consist of 2 each heavy duty shelves with wire mats, 2 each three sided frames for added strength and stability, 1 each wire shelf, and 4 each 63" (160.0 cm) posts with leveling feet.

Item #	Dimensions (width/length/height)		Keg Capacity	Case
	(in.)	(cm)		
FBKR184854	18" x 48" x 54"	45.7 x 122.0 x 137.2	4	1
FBKR186054	18" x 60" x 54"	45.7 x 152.4 x 137.2	6	1
FBKR184863	18" x 48" x 63"	45.7 x 122.0 x 160.0	4	1
FBKR186063	18" x 60" x 63"	45.7 x 152.4 x 160.0	6	1

3 Sided Tubular Frames

When storage demands require the lowest shelf to be placed 24" (61.0 cm) or more above the floor, use a 3 sided frame so the stability of your shelving unit is not compromised. Each support frame is manufactured from 1" (25.4 mm) square tubing.
