20" X 13" X 9"

Double Airpot Rack

APR3BLC

22" X 14" X 13"

Triple Airpot Rack

Identification Accessories

Magnetic IDs are a cost effective alternative to pad printing or laser etching. Each rounded rectangle magnet measures 3.5" X 1.25". Magnet IDs work on the following airpot lines: Eco-Air®, Signa-Air Glass-Lined, and SteelVac™. The **Static Clings** are used for a more discreet way to note what's inside your airpot.
