

Cold Food Dispensers Specialty Dispensers

SPECIFICATION SHEET

FAST FACTS

Stainless steel, cold food servers keep condiments and beverage add-ins cool while the portion-controlled pump ensures flavor consistency; no electricity needed.

APPLICATIONS

- Portioning helps ensure consistent flavor in menu items with models for thin, non-hazardous condiments like flavored non-dairy creamer or thicker cold foods like mayo or tartar sauce in a warm environment
- ECH interfaces with an espresso machine equipped with an auto-frother to draw milk with a hose into the milk supply

DETAILS

- Precise portions control food costs and ensure flavor consistency; 1-oz max portion adjusts in $\frac{1}{8}$ -oz increments
- Includes a stainless steel jar and (2) ice packs (use one, freeze one) for up to four hours between change-outs
- MMS is ideal to serve thicker cold foods like mayo or tartar sauce in a warm environment
- CSM models hold and dispense thin, non-hazardous condiments like flavored non-dairy creamer
- When ordering, specify a colored knob engraved with your contents for a clean presentation; black is standard
- ECH connects to espresso machine for frothing; $\frac{5}{16}$ -in hose

Includes SST
Jar 94009

Includes (2) Universal
Ice Packs 100515

MMS 94070
CSM 94000

ECH 94090

The data is in... **182.45 million Americans**
used coffee creamers in 2020.
This figure is **projected to increase**
to 187.25 million in 2024.

	 THICKER tartar sauce • crafted sauces

CHILLED DISPENSERS

Server cold food servers are constructed of a stainless steel exterior with a polished finish and one-piece seamless plastic interior. Each include a 3-quart 94009 stainless steel jar and (2) 100515 Universal Ice Packs; servers also include a stainless steel, portion-control pump (max 1-oz stroke reduces in 1/8-oz increments). ECH model accepts a 5/16-in hose from an espresso machine into the hole on top. 2-Year Warranty.
