CONSTRUCTION, HARDWARE, INSULATION

Cabinet exterior front, one piece sides, and drawers are constructed of heavy gauge stainless steel. The cabinet is insulated with an average of 2" thick high density, non-CFC, foamed in place polyurethane.

REFRIGERATION SYSTEM

A balanced, rear mounted, front breathing, self-contained refrigeration system using environmentally friendly R-290 refrigerant is provided. It features a capillary tube, air cooled hermetic compressor, a forced air evaporator coil and a non-electric condensate evaporator. An 8' (2.4m) NEMA cord and plug is provided. Standard operating temperature for refrigerator is 34° to 38°F (1.1° to 3.3°C).

CONTROLLER

An electronic digital control is supplied standard. It includes a 3-Digit LED display, and a Fahrenheit or Celsius temperature scale display capability.

DRAWERS

They are constructed using heavy gauge stainless steel drawer slides and 1 5/16" diameter stainless steel rollers. Gasket profile and material simplify cleaning and increase overall gasket life. Drawers include both a self-closing and stay-open feature.

DOMESTIC WARRANTY

Both a six year parts and labor warranty and a seven year compressor warranty (self-contained models only) are provided standard.

When ordering please specify: Voltage, Hinging, and Options.

Equipped with one NEMA 5-15P Plug
