

MODPANS™ - POLYPROPYLENE FOOD PANS

These versatile and reusable pans are perfect for measuring, storing, sealing, and microwaving food. The friction-fit lid snaps securely to preserve food longer. Made from stain-, odor-, and crack-resistant transparent polypropylene, these dishwasher-safe pans feature molded-in capacity guides for quick portioning and nest easily with a vacuum-resistant design for convenient storage.

- Versatile, multi-use design helps to reduce cross-contamination and preserve food freshness
- Lids snap on securely, enabling efficient stacking and storage and eliminating the need for messy plastic wrap or aluminum foil
- Fits in standard make/prep tables and can go directly from refrigerator to table
- Durable polypropylene is transparent for easy identification of contents
