

STORPLUS™ PERMALABEL™ FOOD PANS

Innovative, molded-in food rotation labels make food labeling, storing, and serving a simpler and safer process. The universal date labels are molded directly into the pans, offering a larger writing space that's easily updated with a grease pen or dry erase marker, and includes bilingual indicators like use-by date, shelf life, and days of the week.

- Easily capture critical information for health code compliance - in English and Spanish
- Larger, easy-to-read fields assist in HACCP compliance and make food labeling simple
- Spend less time purchasing and applying stickers and removing bacteria-attracting adhesive build up
- Labels molded into the polycarbonate pans last the life of the pans, which have a 1-year manufacturer's warranty
