

Fountain Jar Pumps

Stainless Steel Pumps

- Take the guesswork out of serving with portion-control pumps for countertop, drop-in or slanted fountainette applications
- Precise portions control food costs and ensure flavor consistency; portions adjust in 1/8-oz increments
- Drop-in (DI) models have a higher discharge point for additional serving clearance
- Thick Pump (TP) models reduce dispensing force needed when working with especially thick or thicker products; model 80879 with lever assist dispenses thick caramel and fudge with ease
- Coordinate pump knob with store theme or contents within; specify color and text when ordering (see p 13 for details)

a Fits 2 qt Jar Countertop Base

b Fits 3 1/2 qt Jar Countertop Base

c Fits 3 1/2 qt Jar, Drop-in Slanted Fountainette
