Elkay is sure to have a water cooler or drinking fountain that will meet, or exceed, your specifications. Select from a wide variety of coolers and fountains that meet **adult or child ADA** standards, as well as coolers that offer the added assurance of our *WaterSentry® Plus Filter System*.

A recent addition is our new **EZH2O™ Bottle Filling Station**. This new, innovative product line continues our commitment to delivering clean water and sustainable design. It provides a rapid fill of filtered water to quench thirst and minimize plastic bottle waste in the environment. Elkay offers the ideal cooler, fountain and bottle filling station for medical facilities, schools and universities, office buildings, airports, shopping malls, sports arenas and other high-traffic venues, for both indoor and outdoor installations.

At Elkay, we are always looking for ways to make great products even better. Superior quality and popular features combine with a vast array of available options, allowing our customers to find the right water cooler, drinking fountain, or bottle filling station for any application. As you browse through our catalog, you can easily identify available options specific to individual products by the icons shown below.

Assembled in the USA

OPTIONS

COLOR OPTIONS

Elkay's color tones have a quiet presence that makes them ideal choices for both new construction and retrofits. They are as durable as they are beautiful, with cabinets made from a tough vinyl bonded to steel, resulting in an impact resistant product that adds an enhanced decorative appearance to any environment.

Stainless Steel products (available at an additional cost) feature complete cabinet, panels and basin constructed of long-wearing, easy-care stainless steel with satin finish.

Although the color tones are reproduced as accurately as possible, you may want to order actual color samples.

How to Order Colors

Color options are available on select models only. Color availability is noted in model descriptions within the catalog.

WALL MOUNT ADULT OR CHILD ADA MECHANICALLY ACTIVATED MODELS

Standard Features

- **No Lead Design** water system is free of lead-containing brass parts.
