Closets and Workstations
Look Professional.

Labor Savings - Eliminates
Mistakes and Wasted Time

Saving Job Files Reduces
Potential for Error.

Purchase Hubbell Labeling Software from www.hubbell-premise.com.

Hubbell Labeling Software utilizes a Windows® based environment and standard Windows® conventions to allow you to easily create labels for a variety of commercial, industrial, and residential applications.

FEATURES

- **Windows® standard conventions** - contains menu, tools, status, and scroll bars.
- **Welcome screen** - contains all label templates that can be sorted by application.
- **Multiple open files** - open and work between multiple files.
- **Serialization function** - when creating label files, this function enables sequential number schemes to be produced with one command.
- **Graphic import** - allows installers and end users to insert logos, pictures, icons, or any digital image to further enhance corporate and port identification.
- **Insert barcodes** - Insert several popular barcode symbologies directly on the label for fixed asset inventory, job costing, product tracking, and administration.
- **Label saving option** - reduces label waste by specifying the label on which to begin printing on a page by indicating a starting row and column.
- **Change label templates** - quickly convert panel labels to workstation or cable labels to reduce time and mistakes of repetitive keystrokes.
- **Extensive import capabilities** - Enables you to easily import database files created in other applications.
- **Save as template** - save as template using text, barcodes, graphics, rectangles, and lines to have static data such as logos or unchangeable text.

Windows is a registered trademark of the Microsoft Corporation.
