Technical leaflet

Freezer cabinets

Lighting food. Brightening faces.

Philips LED lighting for refrigeration cases has a proven track record as a sustainable and energy-efficient way to create an enjoyable shopping experience for customers – while at the same time supporting retailers' brand values.

Thanks to their new, slim design, the PrimeSet RDL500 / 510 modules can be aesthetically integrated in the door frames of vertical door freezers.

The modules' unique integrated optical system directs the light in such a way that the products on display are presented uniformly, while reducing glare and dark spots.

www.philips.com/ledrefrigeration

Design highlights

- Improved visibility and presentation of the frozen food on display; uniform light distribution throughout the entire cabinet.
- Two light levels.
- Reduced complexity as each module can be center or side lit.
- Aesthetic integration of the modules into door frames, enabling better visibility of the products on display and increased storage space.
- Virtually maintenance-free throughout the lifetime of the cabinets, since the LEDs have a long lifetime of 50,000 hours with excellent lumen maintenance.
- Ideal for integration in millions of vertical refrigeration cabinets.

“ Ideal for **vertical integration** in millions of vertical refrigeration cabinets.”

Environment

Significantly improved sustainability due to lower energy consumption, reduced waste and elimination of hazardous substances such as mercury and lead.

Product features

- Ultra slim design with integrated optics.
- Waterproof (IP rating: 65).
- Two typical lighting levels of 1600 lux and 850 lux for excellent illumination of products on the display.
- Each module can be center or side lit by applying a center or side cable.
- Together with the center mounting profile the light distribution will be in two directions. With the side mounting profile the light distribution will be in one direction.
- DLC listed as vertical and horizontal refrigeration display case luminaire.
- 5-year Philips warranty for the modules in combination with the Philips LED power driver.

PrimeSet RDL500 / 510 module

Specifications

- The rated average life of the module, in combination with a Philips LED power driver, is B50L70 at 50,000 hours (70% lumen maintenance). This rated average life is based on three switching cycles per day.
- Operating temperature (performances) min -30 °C / max +30 °C.
- Storage temperature min -30 °C / max +60 °C.
- Housing color: black.
- Safety Extra Low Voltage (SELV).
- Compliance and approval; ENEC, UL, CE, Product safety class III, RoHS, WEEE, EU directive 2002/95/EC, NSF, CSA, REACH.
- The color consistency of the modules is 5 SDCM.
- Instant start-up with full illumination.
- The rated peak intensity is 430 cd for RDL500/510 Vision and 215 cd for RDL500/510.
- The Rated beam angle is 30°.
- The Power Factor with Philips LED Power driver is > 0.9.

LED power driver

Power supply: Philips LED power driver

Philips PrimeSet LED display modules are only suitable for connection to a circuit from a class 2 power source with a limited energy supply. We have developed a LED power driver which is ideal for powering the PrimeSet modules.

To allow for variance in the installation, we recommend you do not load the power driver beyond 90% (20 W, 80 W and 100 W driver) of its rated maximum power. Please refer to the wiring diagram in the installation guide for more details.

Dimensions LED power driver

Type	A	B	C

Accessories

Mounting profiles with options for glare shielding

Our mounting profiles make it easy to install the modules. Thanks to the 'click-in' feature, the installation time is shortened considerably. The glare-free mounting profiles reduce glare to a minimum.

To ensure easy installation we supply mounting profiles that can be used to fix the modules in the mullions. They are available in two versions:

- Glare-free mounting profile for center module
- Glare-free mounting profile for side module

Glare-free mounting profile center

Glare-free mounting profile side

Dimensions mounting profile

Type	A	B1 Center	B1 Side	B2	C Center	C Side
PrimeSet RDL510 750mm (30")	715	56	46	23	23	40
PrimeSet RDL510 850mm (34")	815	56	46	23	23	40
PrimeSet RDL510 950mm (37")	915	56	46	23	23	40
PrimeSet RDL500 1200mm (47")	1167	56	46	23	23	40
PrimeSet RDL500 1500mm (59")	1468	56	46	23	23	40
PrimeSet RDL500 1700mm (67")	1668	56	46	23	23	40

Note: Standard glare free mounting shields are grey in color. Black glare shields are also available for North America the in select lengths.
